Summary

- 5+ years of experience in backend development using Python.
- Specialized in building scalable APIs and web services with Django and FastAPI.
- Experienced in financial systems, background jobs, and real-time reporting.
- Proficient with PostgreSQL, Redis, React, and modern DevOps tools.
- Skilled in CI/CD automation using Docker, Kubernetes, and GitHub Actions.
- Strong problem-solving skills and effective collaboration in Agile teams.

Technical Skills

Languages Python, JavaScript

Frameworks Django, Flask, FastAPI, React, Next.JS

Databases PostgreSQL, MongoDB, MySQL, Redis

DevOps & Tools Git, Docker, Kubernetes, ArgoCD, Github Copilot, Celery, Kafka, Pytest

Professional Experience

TIMS – SSI (Saigon Securities Inc.)

Hanoi, Vietnam

PYTHON BACKEND DEVELOPER

06/2023 – Present

- Contributed to the development and maintenance of TIMS (Treasury & Inventory Management System), supporting bond trading, credit limits, and cash management.
- Implemented core financial logic and data workflows for trading, borrowing, and forecasting.
- Built financial reporting features, including real-time dashboards and historical trend views.
- Maintained 85%+ test coverage using Pytest and SonarQube for quality enforcement.
- Designed and implemented an SSO-integrated authentication system with RBAC.
- Built and maintained a background job system using Celery, Redis, and Kafka.

Genetica.asia

Hanoi, Vietnam

PYTHON BACKEND DEVELOPER

08/2022 – 06/2023

- Developed backend services and admin tools using Django REST framework.
- Built user portal frontend with ReactJS and integrated with backend APIs.
- Implemented a complex cart and payment system integrated with third-party APIs.
- Refactored monolithic codebase into modular services and optimized PostgreSQL queries.
- Maintained API versioning, documentation (Swagger), and test coverage with Pytest.

Delivery Service – Advesa Digital Solutions

Hanoi, Vietnam

PYTHON BACKEND DEVELOPER

09/2020 – 08/2022

- Built and maintained Django REST APIs for same-day delivery services.
- Optimized system performance using Celery, Redis, and MongoDB.
- Implemented payment and commission logic, and integrated third-party APIs.
- Collaborated with frontend and mobile teams to deliver well-documented APIs.
- Deployed and operated services on Google Kubernetes Engine (GKE).

SMS System – IRIS Media Company

Hanoi, Vietnam

PYTHON BACKEND DEVELOPER

06/2019 – 08/2020

- Developed a GSM-based SMS platform with a Flask backend and PySimpleGUI client.
- Designed PostgreSQL and Redis schemas to handle millions of SMS records.
- Optimized throughput to exceed 50,000 SMS messages daily.
- Assisted clients with API integration and technical onboarding.

Credit Data Query

PYTHON BACKEND DEVELOPER

- Built a Django REST API for managing and querying CIC credit data.
- Crawled data using Selenium and BeautifulSoup and stored it in PostgreSQL.
- Implemented JWT-based auth, user balance tracking, and payment logic.
- Integrated a Facebook Messenger chatbot via Chatfuel for user data access.

Hanoi, Vietnam

05/2018 – 02/2019

Education

VMMU (Vietnam Military Medical University)

GENERAL PRACTITIONER

*160 Phung Hung Street, Phuc La
Ward, Ha Dong, Hanoi*

Aug. 2014 - June. 2020
